

New Development & Groundbreaking Ceremony Announcement

The Anniston Housing Authority is pleased to announce that our non-profit, Housing Development Corporation, is continuing our efforts to modernize and redevelop the South Allen area of Anniston, Alabama. There will be new construction consisting of 11 units of affordable housing for low-income families in the upcoming months.

The HDC has been awarded over \$1.1M through the HOME Investmet Partnerships Program and \$1.5M in American Rescue Plan Act of 2021 State and Local Fiscal recovery funds to finance this project.

Prior to beginning the new construction on the South Allen development, we will have a Groundbreaking Ceremony on Thursday, October 31, 2024, at 11:00am. Hurst Construction has been awarded the contract to build the units with a speculated completion timeframe of August 2025.
